

Independent third-party services

Ensure the quality of your products by third-party inspection

As a quality controller, we monitor that the manufacturing is performed and documented according to your requirements. We follow your products through the production and visit your suppliers according to your demands of witness points. Also, we can perform accredited mechanical and non-destructive testing. We have a very good geographical coverage in Sweden. Below you can find examples of what we can offer in terms of independent third-party services.

Services
